Intervest International Equities Corporation Notes to Financial Statements Year Ended December 31, 2008

The company (originally named Kickapoo Securities Corp.) was organized under the laws of the State of Texas on June 11, 1987, to conduct business as a broker/dealer in securities registered with the Securities and Exchange Commission (SEC). On July 6, 1987, the company made application with the SEC for registration as a broker or dealer pursuant to Section 15(b) of the Securities Exchange Act; such application was approved on July 31, 1987. The company was acquired by, and became a wholly-owned subsidiary of Intervest International, Inc. (III), during January, 1988. Operations actually commenced during February, 1988. Effective March 31, 1988, the company was merged into a newly-organized Florida corporation (also owned by III) named Intervest International Equities Corporation. Such merger was acknowledged by the State of Texas on July 6, 1988. The merger transaction was accounted for as a pooling of interests.

1. Significant Accounting Policies

For purposes of the statement of cash flows, the company considers all highly-liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Revenues are recognized when customers' funds are received by sponsors/underwriters. Operating expenses, including commissions, are recognized as incurred.

2. Commitments and Contingent Liabilities

The company has an agreement with III, its parent company, whereby the company reimburses III for its share of common overhead expenses, including the following: office space and equipment, administrative personnel, telephone, parking, postage, and other office supplies and expense.

3. Net Capital Requirements

The company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2008, the company had net capital of \$267,615 which was \$255,365 in excess of its required capital of \$12,250. The company's aggregate indebtedness to net capital ratio was 0.69 to 1.

Intervest International Equities Corporation Notes to Financial Statements (continued) Year Ended December 31, 2008

4. Income Taxes

The parent company, with the consent of its stockholders, has elected under the Internal Revenue Code to be an S Corporation effective January 1, 2003. In lieu of corporation income taxes, the stockholders of an S Corporation are taxed on their proportionate share of the Company's taxable income. The parent company has also made an election to treat its wholly-owned subsidiary (the Company) as a qualified subchapter S subsidiary, or "Q-sub". A Q-sub is not taxed as a separate corporation, and all its tax items are treated as belonging to the parent.

5. Investments (at cost)

The company has acquired long-term investments in The Nasdaq Stock Market, Inc., as follows:

Balance, December 31, 2007	\$	123,725
Unrealized holding loss	_\$	(61,950)
Balance, December 31, 2008	<u>\$</u>	61,775

The common stock's cost basis is \$42,025.

6. Litigation

In 2008, an investor filed litigation naming the Company, two former Company representatives, and various business names under which the two former representatives allegedly operated, as defendants. The investor claims that the two former representatives sold unregistered securities to him in the form of promissory notes from a real estate development entity. The investor claims that the Company is liable for the actions of the two former representatives under the theory of *respondeat superior*.

The investor seeks unspecified damages, estimated to be \$250,000. The Company is vigorously challenging this litigation.

OMIT PENNIES

Instructions: Detail Listing must include the total of items maturing during the six month period following the report date, regardless of whether or not the capital contribution is expected to be renewed. The schedule must also include proposed capital withdrawals scheduled within the six month period following the report date including the proposed redemption of stock and anticipated accruals which would cause a reduction of Net Capital. These anticipated accruals would include amounts of bonuses, partners' drawing accounts, taxes, and interest on capital, voluntary contributions to pension or profit sharing plans, etc., which have not been deducted in the computation of Net Capital, but which you anticipate will be paid within the next six months.

Independent Auditor's Report on Internal Accounting Control Required by SEC Rule 17a-5

Board of Directors Intervest International Equities Corporation Colorado Springs, Colorado

In planning and performing our audit of the financial statements of Intervest International Equities Corporation for the year December 31, 2008, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customers' securities, we did not review the practices and procedures followed by the Company (i) in making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by rule 17a-13 or (ii) in complying with the requirements for prompt payment for securities under section 8 of Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Cornelius Schou Leone & Matteson A Limited Liability Company Certified Public Accountants

Independent Auditor's Report on Internal Accounting Control Required by SEC Rule 17a-5 (continued)

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2008, to meet the SEC's objectives.

This report is intended solely for the use of the Board of Directors, management, the SEC, National Association of Securities Dealers (NASD), and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used for any other purpose.

Board of Directors Intervest International Equities Corporation Colorado Springs, Colorado

We have audited the accompanying statement of financial condition of Intervest International Equities Corporation, a Florida Corporation, as of December 31, 2008, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Intervest International Equities Corporation as of December 31, 2008, and the results of their operations and their cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in pages 14 through 19 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
